INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference 16820.P306PCT	FOR FURTHER see Form PCT/ISA/220 ACTION as well as, where applicable, item 5 below.					
International application No. PCT/US05/28791	International filing date (day/month/year) 12 August 2005 (12.08.2005) (Earliest) Priority Date (day/month/year) 04 August 2013 (04.08.2013)					
Applicant CYPRESS SEMICONDUCTOR CORPORATION						
This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau. This international search report consists of a total of sheets. It is also accompanied by a copy of each prior art document cited in this report. Basis of the Report a. With regard to the language, the international search was carried out on the basis of: the international application in the language in which it was filed. a translation of the international application into of a translation furnished for the purposes of international search (Rules 12.3(a) and 23.1(b)) b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, see Box No. 1. Certain claims were found unsearchable (See Box No. II) J. Unity of invention is lacking (See Box No. III) the text is approved as submitted by the applicant. the text has been established by this Authority to read as follows:						
may, within one month from the figure of the drawings, a. the figure of the drawings to be put as suggested by the appearance of the drawings to be put as suggested by this Au	according to Rule 38.2(b), by this Authority a he date of mailing of this international search blished with the abstract is Figure No. 2\(\Delta\) options. thority, because the applicant failed to sugge thority, because this figure better characterize	report, submit comments to this Authority.				

Form PCT/ISA/210 (first sheet) (April 2005)

INTERNATIONAL SEARCH REPORT

International application No.

PCT/US05/28791

Box IV TEXT OF THE ABSTRACT (Continuation of Item 5 of the first sheet)					
A method and an apparatus to design a processing system using a graphical user interface (GUI) are described. The method includes allowing a user to define a transfer function via a GUI (tien 211). The method may further include submitting the transfer function to a processing device maker associated with a processing device (215). The processing device maker may generate processing device code without intervention by the user (215). Furthermore, the processing device may execute the processing device code to perform the transfer function defined (220).
